

## Going High in Dorset.

In Scotland they have their Munroes and their Corbetts that set a challenge to those wishing to 'bag' them all.

Can we set a similar challenge here in Dorset? What would we wish to call our summits?

Would they be '**Barnes**', after our great, walking poet, or would they be '**Hardies**', after our best-known novelist or even our best-known admiral?

Here is a list of some of 'our' summits and their heights. You may know others to add.

Could we devise a suitable symbol or logo?
